

## Gygoreg

2020, Michał Zapła, <https://boardgamegeek.com/thread/2497603>

The game is played on a "diamond" board using Ayu setup. Suggested size is 10.

Definition: A **group** is a maximal set of like-colored, orthogonally connected stones.

During his turn, a player can:

1. Place a stone of your color on an empty square orthogonally adjacent to at least one stone of your color
2. Remove a single enemy group from the board

The player that only has one group on board wins the game
