

## The Polka-Dot Game

2018, Chris Huntoon, <https://boardgamegeek.com/boardgame/319683>

The game is played on an 8x8 board. Each player has four different colors, with eight pieces per color.

Players take turns placing a Dot on any empty space on the board - with the following restriction: a Dot may not be placed on any square that shares the same row, column, or diagonal of a Dot of the same color.

First player unable to place a Dot on their turn loses.
