

Custody

2026, Alek Erikson, <https://boardgamegeek.com/thread/3645530>

The game is played on the following board,

initial setup

Definitions

- **Group**: friendly stones connected by orthogonal and diagonal adjacency.
- **Sandwich**: orthogonally adjacent “custodial” A–B–A arrangement. The A’s in the sandwich are “frozen” as long as the sandwich exists.

Black moves first.

Move an unfrozen piece like a rook through empty spaces onto an empty space.

A move is legal only if it reduces your group count.

If no legal move is available, remove one of your pieces from play instead of moving.

The player which unifies his pieces into a single group wins the game.
